PRODUCT CATALOG

ABOUT THE COMPANY

We are honored by your interest in Keylink.

Our team here at Keylink is committed to creating thoughtfully designed and well-made aluminum railing and fencing to help you create beautiful, livable outdoor spaces. We take pride in our work and delight in serving your needs. From our plant in New Holland, Pennsylvania to job sites across North America, we trust our team's commitment to quality is evident.

We appreciate you taking the time to browse this book and see what Keylink has to offer to you and your customers. Partnerships with businesses like yours are the key to our success, and we look forward to supplying you with the aesthetically pleasing, innovative, and easy-to-install products for which Keylink has been known for the past 30 years.

With our gratitude,

Javan Lapp

CEO

FAMILY OWNED SINCE 1978

John Lapp started our business as Quality Fence in 1978. Through the years, the business grew to include vinyl and then aluminum railing and fencing.

Reuben Lapp, John's son, grew the railing side of the business, continuing to focus on the installer and making key investments in engineering and machinery to create our unique cable rail systems.

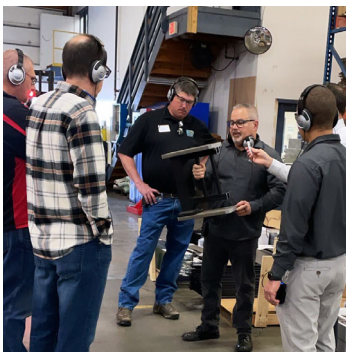

Keylink continues to be family-owned, with the third generation of Lapps now working in the company. At the end of 2022, Reuben Lapp turned the day-to-day operations of the business over to a new CEO, Javan Lapp (no relation), so that Reuben can focus on the parts of the work he most enjoys.

While we've modernized, grown, and improved, the values that drove the success of that initial business, Quality Fence, continue to guide and inspire us today.

CORE VALUES

SERVE THE CUSTOMER

Serving our customer means partnering with them through sales, marketing and education, including on plant tours like this one. We strive to make sure our customers have all they need to succeed.

DO THE RIGHT THING

Integrity is at the center of all our business dealings, and it extends outward to our work in the community. Team members participate in events like backpack drives, food donation, and other community services.

RISE TO THE CHALLENGE

We are eager to learn and tackle new challenges. In this instance, to better understand our contractor customers, Keylink product engineers took on the challenge of building a deck from the ground up!

VALUE PEOPLE

Keylink values our people, providing them with opportunities for growth, career development, and fun. Valuing people leads to employee retention and satisfaction—and, as a result, products and service that are always improving.

POWDER COATING PROCESS

Keylink powder coats all of our aluminum at our plant, using a multi-step process to ensure a long-lasting, high-quality finish.

- 1. Hanging.** Parts are hung on hooks designed to be the right size and shape for optimal coating.
- 2. Washing.** In this five-step wash, all organic and non-organic material is removed from the aluminum so coating can adhere to the material.
- 3. Drying.** Complete oven drying removes any water droplets that could prevent a quality coat.
- 4. Coating.** Coating is applied via spray guns. The angle and degree of the guns' applicator tips changes depending on the size and shape of the profile being coated.
- 5. Curing.** The pieces go back into the oven so the coating "bakes" on for colorfastness and weather protection.
- 6. Checking.** Quality technicians check to make sure each piece is coated to Keylink quality standards.

Keylink has received PCI-4000 Certification from the Powder Coating Institute, which is third-party confirmation that our process and coating meet the highest standards.

POWDER COATING STANDARDS

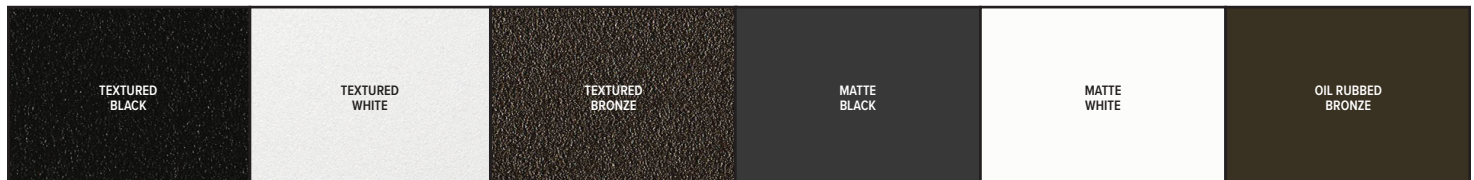

AAMA 2604 Standard Coating

Used on all Keylink products unless an upgrade is ordered. This level of protection balances effective coating with affordability, making it an excellent choice for outdoor aluminum.

AAMA 2605 Coating with Coastal Upgrade

Strongly recommended for installations near bodies of water, especially saltwater. This upgrade includes a primer over all the aluminum before it's finished with AAMA 2605 standard coating. The coastal upgrade protects the aluminum from galvanic corrosion. Please note that a slight difference in colors is expected between AAMA 2604 and AAMA 2605 finishes. Please contact your Territory Manager for 2605 color swatches.

FASCIA MOUNTING SYSTEMS

Keylink's solidly crafted fascia mounting brackets let you move railing posts to the fascia for additional deck space and a unique aesthetic. For each linear foot of railing, fascia mounting gives you an extra ½ square foot of space compared to traditional surface mounting.

POSTS, STRUCTURAL COLUMNS & POST WRAP

Compliment your railing project or support your porch roof with these handsome aluminum posts, structural columns and post wrap. All items are color matched to our railing lines, and unlike wood, these posts will not crack, rot, or ever need to be painted.

KEYLINK QUICK SHIP FENCING

An aluminum fence enhances the look of any property, from the smallest yard to the largest estate. These fences add sophistication and elegance, as well as security, to your home.

Keylink's aluminum fences come pre-assembled, with a "no screw" system that makes installation fast and easy. And our hidden picket fasteners make for simple, clean lines.

OUTDOOR LED LIGHTING

Create stunning focal points and add atmosphere and safety to your outdoor living space with lighting. Our lighting is designed to pair with railing for a beautiful, seamless look. Post cap and accent lights are made from diecast aluminum and powder-coated to match our aluminum railing and posts exactly. The high-quality coating means that the lights will retain their good looks for years.

Keylink's electrical engineers and experts have refined our lights for a long-lasting and easy-to-use system that brings exceptional outdoor lighting to your deck or porch.

RAILING SHOULD NEVER BE AN AFTERTHOUGHT

Railing is the first thing you see when you step onto your deck, it's essential for safety, and it literally surrounds you at every turn. Choose railing that sets the tone and matches the quality you want in the rest of your outdoor living space.

Keylink aluminum railing is the premier choice for both residential and commercial spaces. Contractors and builders praise Keylink's quality and the thoughtful details that make it easy to install. Home and business owners love Keylink's unique design and premium craftsmanship.

Manufactured in the USA

Keylink's products are proudly designed and manufactured in the USA to ensure a quality fit and finish.

WHAT IS KEYLINK QUALITY?

- AAMA 2604 standard powder coating on railing and accessories to promote weatherability, with AAMA 2605 standard available for additional protection
- IBC or IRC code compliance for peace of mind and safety
- High-quality aluminum with vinyl inserts to hold balusters snugly and prevent rattling
- Limited lifetime warranty and 5-year prorated labor warranty
